

Thank you, Glenn

Description

ABBCIS

The college appreciates all the work and time that Glenn Maning has donated to the school, not only during the past semester, but also during the past decade or two. A few months back, he rebuilt four computers for the college and also helped us back up our schoolâ??s records on-line, and at three other secure locations not accessible online.

On one occasion, I came into the school about noon and he was working on some stuff. When I left that night he was still working on some stuff. When I came back the next morning, I found out he had continued working on that same stuff all night long and until about 3pm the next day.

Glen is a blessing to the school in many ways and we appreciate all that he does and has done for the college through the years. He also managed the old website since Antioch Baptist Bible College decided to introduce itself to the world via the schoolâ??s webpage.
